

To: _____

I'm giving you crap.

I am writing to give you crap until you convince me you care about climate change. Here it is.

Please be advised I won't do crap to support you until you convince me you care about climate change by putting the issue at the top of your political agenda.

You can do this by signing the [Climate Mobilization Pledge](http://www.theclimatemobilization.org/candidates-pledge) (http://www.theclimatemobilization.org/candidates-pledge). Part of it is quoted below.

"The most fundamental responsibility of government is to protect the citizenry. As a member of government, I will do everything in my power to treat climate change like the crisis it is.

I WILL:

Introduce and support legislation that acknowledges climate change as a global crisis and demands mobilization.

Advocate publicly for a WWII-scale climate mobilization in the halls of government and in the media.

Enlist fellow leaders from all parties in this effort.

Thus I pledge to mobilize, in defense of civilization and the natural world."

Sincerely,
